Sportsmanship

Unfortunately we had some issues with sportsmanship these last 2 weeks. I wanted to send out a friendly reminder.

**Let the players play
Let the coaches coach
Let the referees ref
Let the spectators
be positive!**

Having multiple people address the players or the officials pulls their attention away from the game and not only hurts them but also the game. Please help keep their focus on the game by allowing the head coach to address the players and the supervisor to address the officials.

**Those who don't follow
this will be asked to
leave with no warning.**
