### Simplify Participant Notification!

When schedules change you have enough to worry about. Stop wasting valuable time updating participants with phone calls, emails, & texts.

[Find out how RainoutLine changes participant notification forever!](#)

#### Not Just for Rainouts

Sure it is great for schedule changes caused by weather, but RainoutLine is being used by organizations across the country in ways we never imagined.

Here are just a few of the types of organizations using RainoutLine as their one stop notification service:

- Swimming pools • Ice Rinks
- Parks & Rec's • Music Festivals
- Fitness Classes • Fleet Management

[Check out what makes us different](#)

#### Only \$399/year

For less than the price of a traditional phone line, RainoutLine includes ALL of the following:

- Your OWN local telephone number
- Our "No Busy"™ signal technology
- FREE iPhone and Android apps
- Automated email and text messaging
- Facebook and Twitter integration
- Scrolling banners for your website
- Customized website dashboard
- Advanced security for multiple users
- Up to 100 extensions

 Compare Text Alerts vs Free App

Text Alerts	Free Mobile App
You receive an alert everytime the status is changed, even when you are not interested in it.	You check the status only when you need to know, or quickly enable/disable push notifications.
Text alerts are limited to 140 characters so you may not get all the details and have to check via another method.	App shows all info.
Text alerts can not play the audio of any status detail messages recorded over the phone.	The app can play audio.
We can not guarantee delivery of text messages. Many carriers filter messages and/or delay delivery.	The app updates in real-time.
Text can work for any phone that has text capabilities.	The app works for anyone that has an Android or Apple mobile device.

If you would still like to set up email or text alerts, click the appropriate tab above.

Do you have an Android or iPhone mobile device? If yes, we recommend downloading the free RainoutLine.com app from the app store instead of signing up for text alerts. The app makes it easier to enable and disable alerts without having to go through the process of verifying your phone number. Also, text alerts are limited to 140 characters so you might not see the whole status detail and text alerts can not play audio messages. The app does not have these limitations.

1 Enter the phone number to subscribe.

2 When would you like to stop receiving alerts?

3 Which extension(s) would you like this to apply to?

- Al Bishop Complex
- Kennworth Park
- Nickajack Park
- Terrell Mill Park

Do you have an Android or iPhone mobile device? If yes, we recommend downloading the free RainoutLine.com app from the app market/store instead of signing up for email alerts. The app gives the benefit of quickly checking the status whenever you need to know as opposed to alerts that are sent everytime the status is updated.

1 Enter the email address to subscribe.

2 When would you like to stop receiving alerts?
