

1st & 2nd Grade Fall Baseball League

2023

The purpose of fall ball in the 1st & 2nd league is to develop players and prepare them for the spring season of the upcoming year. Fall ball is not intended to be competitive. It is to be used as a learning experience to give the players a better understanding of the game of baseball.

- Games are no new inning after 50 minutes or 4 innings. Each inning, all batters in the lineup will bat, regardless of the number of outs recorded. Outs will be tracked for situational purposes only (tagging up vs. running on contact). After 3 outs in an inning, the out count starts over and is repeated until all batters in the lineup have hit.
- No official scoring will be kept in fall ball.
- Games will be played on 60-foot bases. The pitching machine will be set at 40 feet and 40 MPH. A coach will put the ball in the machine. The machine should only be adjusted if both coaches agree to it.
- Ten players can play the field. 4 outfielders 6 infielders including a catcher (must wear full equipment). The outfield must be beyond the grass/dirt line. They may come in front of the grass/dirt line once a pitched ball is hit. Coaches are allowed to be out in the field with the defense to provide direction.
- No bat restrictions
- No lead-offs. A player can only leave the base when the batter makes CONTACT with the ball. If the runner leaves early, he can be called out. Stealing is not allowed.
- Play is considered dead when a defensive player has control of the ball on any base. (1st, 2nd, 3rd, Home, Pitchers mound) If there is an overthrow or an under throw at any base, the runner can only advance one base. Advancing runners may continue if at least halfway to the base.
- Bunting is not allowed. The batter will be called out. No walks, or bases awarded if the player is struck by a pitch by the machine.
- Batter gets 6 pitches. If a batter faces a 6th pitch and watches or swings and misses he is out. If he/she fouls off a 6th pitch, they are awarded additional pitches that they must swing at.

- If a batted ball strikes the pitching machine and goes into foul territory or stays in the pitching machine circle. The ball is dead, the batter is awarded first base and all runners advance one base. If it hits the machine and stays in fair territory, the ball is still live as normal.
- No infield fly rule.
- If the batting team interferes with a live ball, the ball is dead. That player is out. And runners will go back to the last base obtained. A hit ball that touches a runner in fair territory, without being touched first by a fielder, that runner is out. Fielder/Runner interference is based off the situation. A fielder must be given an opportunity to field the ball (if obstructed, the runner is out). If a runner is obstructed by a fielder in the baseline, or blocking the base. He/she is awarded the base he/she is going to.

A reminder to all coaches & parents that
this league is a developmental and
learning league. We are playing these
rules to help prepare our kids for the
upcoming rule changes & age group
adjustments.
