Schedules posted to Downloadable Files are subject to the same rates as schedules created by the QuickScores software.</p>		
<p>Clients are subject to an annual minimum fee of \$120, which is placed as a credit on your account. As the site is used, the scheduling and online registration fees will be deducted from the \$120. If the \$120 is exhausted within a year, invoices will be sent for each subsequent event. On the anniversary, the annual fee of \$120 will be due again. If the \$120 has not been exhausted by the end of the year, the remaining funds are forfeited.</p>		
<p>Leagues are billed approximately one week after the league begins. Tournaments are billed immediately after they begin.</p>		
<p>Consulting QuickScores provides free technical support for questions regarding use of the website software. Some clients desire a higher level of assistance in order to organize, setup and create league and tournament policies, schedules, and brackets. QuickScores will provide this type of consulting assistance at a rate of \$50.00 per hour, with a minimum of one hour. QuickScores will determine if and when simple technical support becomes a more involved consultation, and advise the client of such fees before beginning further consultation.</p>		

Online Registration Fees				
<p>QuickScores will charge the client a \$1.00 fee for every registration form submitted. QuickScores will invoice the client for these fees along with league/tournament scheduling fees when the event starts, or approximately every month for long-running registration events. The client will also be responsible for the processing fees charged by the payment processor (Clover, PayPal, Square, etc.) per their agreement with the processor.</p>
