Covid Guidelines

In order to provide a safe environment for the teams and their families traveling to our facility for the 8U Girls Class C State Tournament as well as our staff and personnel, there are a few guidelines we are asking attendees to abide by in order to make it as safe as possible.

- Masks are mandatory for all coaches, parents and fans attending the event while in the gym.
- We ask that spectators be limited to immediate family if possible to assist in crowd control and to limit exposure.
- We are asking teams to arrive closer to game time after the team has been verified. In order to limit the number of people in the gym for games, once a game has begun, next game teams will not be allowed in the gym until the other game has ended and cleared out. Once a game has ended, teams and attendees will exit the gym through two separate side doors that will be open. This will alleviate crowds in the hallways.
- No outside basketballs allowed. Sanitized game and warm up balls will be provided for teams and will be sanitized before, during and immediately after each game.
- All water fountains will be unavailable and shut off due to Covid regulations.
- We ask that all participants, spectators and employees adhere to six-foot distancing while at the facility as much as possible.
- We ask that all participants and spectators self-evaluate themselves prior to travel. We will be checking temperatures at the door prior to entry and reserve the right to not allow you in the facility if you are found with an elevated temperature.
