Outdoor Soccer League
Spring 2019 – Information Sheet

1st-6th Grades: This program is designed to be a recreational soccer league for youth in 1st – 6th Grade. The purpose of this program is to give children the opportunity to learn soccer skills. The main emphasis is focused on fun, fair play, skill development and teamwork.

Rookie League: This program is designed to teach participants the basics of soccer so they understand rules, proper techniques and basic skill development in a fun environment. All participants will be divided into teams at the beginning of the season. Staff will be on every field to teach basic skills and drills each week. Each level has been thoughtfully created and catered to basic learning abilities of each age group. If you feel your child is more advanced than their general age group, you may register up a level. If you are uncertain, register them in their current age group.

Teams: Teams will be organized by the child’s grade level. We will try to accommodate coaches’ and parents’ requests to have their children playing on the same team as their friend, but due to the size of the program we cannot guarantee all requests. It is important that you put down who you want to play with in the registration process.

Organization Day: No ORGANIZATION DAY for the spring 2019 season. Uniforms etc. will be distributed by coaches at the first game of the season.

Practices: Practices are to be held according to the coaches’ desires and may be held at any local green space that the coach can secure. Holladay-Lions does not schedule or have any information regarding team’s practices.
