Philosophy

The Intervillage Youth Basketball League is designed to provide healthy recreation in an environment where children can have fun along with the opportunity to develop physical skills and emotional maturity through interaction with other children and adults. Each player learns the basic skills of basketball or improves existing skills in an atmosphere of fun, teamwork, and good sportsmanship. Competition is a natural ingredient existing in all team sports. We simply do not stress competition as being the primary purpose of this program.

Competition Policy

The Intervillage Youth Basketball League promotes strong competition for the teams, but all competitors, coaches and players alike, will strive for a strong balance between competition and sportsmanship. The League also recognizes that participants exhibit a vast range of skill level, and the League will do all that it can to accommodate these skill levels without putting a majority of the participants at a disadvantage.
