

“Playing Softball In Your 70s’....”

To most, it may not seem like a very big deal
In fact, to some, it may not even seem quite real
But playing on a team in your mid-Seventies is pretty darn cool
Like reliving those great days, way back in high school....

To be out there with these gifted athletes
Old men with leather gloves, wearing shoes with cleats
Running around bases, after they ripped one to Left
Is just such a great feeling, and not easy to forget....

Playing a game we all grew up with as kids
With no aches, no pains, as we grin and close our eyelids
Of course, those childhood days were from so long ago
When we could see a fastball coming, but now they’re high, and coming in slow....

And sure, it might take us all day to reach First Base
But that’s okay, ‘cause we all feel we’re in some kind of a race
And we don’t quit because of a pulled hammy, or a replaced knee
Because we’re part of a team, a team going for yet...another Victory....

These oldtimers, are special, these guys can really score some runs
Beating better ball clubs on paper, but out on the field, is where they get it done
Winning championship after championship, the best that Texas has seen
And they do it everywhere in the State, far from the Field of Dreams....

At our age, there’s certainly more important things that we all can do
More important than playing softball, but what that is...‘don’t think we’ve got a clue
‘Beating Triple AAA teams (twice) like Bale Chevrolet, I think...from Oklahoma
‘Given 5 runs in each game, well, we didn’t need em’...and just put them in a coma
So we’ll play this game until the Sun finally sets, far to the West of home plate
And these guys will play the game they love, and when they do, they’ll always play
it....GREAT...!!!!

CONGRATS ROBSON RANCH 75+ TEXAS STATE CHAMPIONS (again) - 2024...!!!
