## Injury Awareness Statement

As manager of an Adult Softball Team participating in the south San Francisco Adult Leagues, I assume the responsibility of advising members of my team that while the program is recreational, softball by its very nature is a sport in which participants may be injured. Players should be familiar with basic softball principles. The City of South San Francisco uses pegged bases which means they do not move when a player slides into them. Players should be proficient in the art of sliding and aware that this type of base is being used.

I also agree to inform team members of the USA insurance available for softball teams.
