

As kids grow, so does the game: the ball grows larger, the basket becomes taller, the free-throw line retreats farther from the basket. Players continue to work on the tactics and skills they have already developed, but the tactics become a little more complex as they delve deeper into creating and using space to attack. In addition, they learn how to set screens and how to defend against screens, and they hone their skills in maintaining possession and defending space.

OVERVIEW

The practice plans that follow provide a guide for the season and incorporate the following key components:

- **Practice Goals:** The goals of the practice are your main focus.
- **Team Circle:** The team circle time that kicks off each practice is an opportunity for you to cover key character development concepts with your players. The Y's four core values—caring, honesty, respect, and responsibility—can all be related to many situations that arise while playing basketball. For example, playing cooperatively with teammates shows that you care about them.
- **Tactics and Skills:** Tactics are knowing what to do during the game (and when to do it), and they require an understanding of the problems faced by each team during the game and how those problems can be solved. Ways to maintain possession of the ball would be tactics. Skills are the physical skills traditionally taught, such as passing or shooting the ball or controlling the ball during play.
- Rules and Traditions: You will teach the rules of the sport to young children gradually, as part
 of playing games and learning skills. Traditions are those unwritten rules that players follow to
 be courteous and safe, such as raising their hand when they foul someone or playing
 cooperatively with the others on their team.
- **Fitness Concepts:** Even young children can understand some simple concepts about health and fitness, such as the idea that exercise strengthens your heart.

5 mins.	Tight Dribbling Series	INDIVIDUAL The focus of this drill is to dribble the ball tight to the body through the cones, which will help warm up and improve ballhandling skills. Have players complete their moves at each cone and finish with a layup or jump shot.	https://sportsedtv.co /3zbpAr7
10 mins.	Level 1 Shooting: Off the Dribble	INDIVIDUALIn this drill, players learn how to string together several combination dribbling moves to improve shooting off the dribble.Set up cones beyond the three-point line and have the players dribble through them, finishing with a layup or jump shot. Make the moves more difficult to progress with the drill.	https://sportsedtv.co /3xU8e0F
10 mins.	How to Set a Screen	Screens are used by players to get open for a shot, drive, dribble, or pass. This drill reviews how to set on-ball screens and the different screens players can set for their teammate handling the ball. First, have everyone complete each screen without defense, and then add a defender when the team is ready.	https://sportsedtv.co /3mquzRb

10	Position and Movement	TWO VERSUS TWO, MODIFIED HALF-COURT GAME	N/A
mins.	Game	If a team makes a basket, that team gets the ball again (gets a second turn). Designate the area (such as the lane) from which players must shoot to earn a point. Call modified double dribble and traveling violations.	
		For example, a player can stop and start toward the basket three times before a double dribble violation is called, and a player can take four steps while not dribbling before a traveling violation is called. If a violation occurs, the team's opponent takes a turn. The focus of this game is to force the players to move to the open spot and utilize each other to score.
