Goalie Activities

Coach:

Team:

Overview: Here are some possible activities for goalkeepers at this age group, to be mixed in with each practice to give the keepers position-specific work. Look to work goalies into the games at the end of practice whenever possible. Also, do include goalies in some of the other activities (passing, dribbling, etc.) so they develop those essential skills, and participate with the rest of the team. Have goalies participate in all warmups and fitness activities when possible, and make sure to give them an upper body warmup as well.

Time	Activity Type	Activity Description	Reference
10-15 min	Stance & Hand Position (multiple variations)	<p>This activity (see video) helps goalies build the habit of getting into the right stance, and having their hands in the correct position when they are ready for a shot.</p> <p>As the video explains, this activity has many different progressions and variations. Mix them up through each session.</p>	<p>Video Tutorial:</p>  <p>https://sportsedtv.co/37MQnxV</p>
10-15 min	Angles	<p>This activity (see video) prepares goalies to deal with shots coming from an angle.</p> <p>Mix up the angle of the shot, and the type of shot (height, aim, power, distance, etc.) to make different variations.</p> <p>Use a couple variations of this per session, as needed.</p>	<p>Video Tutorial:</p>  <p>https://sportsedtv.co/3slqgYt</p>
10-15 min	Kneeling Dive	<p>This activity (see video) introduces diving to goalies. By starting on their knees, the impact is lightened and they can focus on the right technique. Emphasis the points from the video while teaching.</p>	<p>Video Tutorial:</p>  <p>http://sportsedt</p>

			v.co/2W0dTFI
10-1 5 min	Partner Catching	<p>Have the goalies stand across from each other, and throw the ball back and forth to each other's hands.</p> <p>Then, have them roll the ball to the others for them to get down low and collect it with their hands.</p> <p>Different variations (such as throwing the ball straight up, off to one side, etc.) of these partner catching activities can be used as needed.</p>

15-20 min	Footwork & Diving (still ball)	Here (see video), players learn to combine footwork with diving. This is very important as it will make goalies faster to react and get into the habit of being on their toes before diving for a save. This activity involves diving to collect a still ball.	<p>Video Tutorial:</p>  <p>https://sportsed</p>
